Other groups who advanced language contact included between 1652 and 1767, political prisoners were exiled to the Cape from countries such as Indonesia, India and Sri Lanka. In addition, as tribal groups have traditionally been defined by language, the homelands separate blacks linguistically, thus limiting their contact with people from other groups.

## Afrikaans

These words should be pronounced aloud as they are being committed to memory. Lees hardop : — Wat sien ons hier? In order to place these influences into context, a brief overview of the development of the language is provided in the following paragraphs.
