GIZA

However, the collections of the Egyptian Section derive primarily from excavations sponsored by the Penn Museum. Mummies The Egyptian Section has an importation collection of materials associated with the funerary arts in Egypt. Results of detrition clearly traced.

Egyptian Section

DM 303, states the contact between the draftsman and his supervisor; the Place of Truth scribe, he addresses him the text reads: 'If there is work, bring the donkey! Some of the limestone used in the construction was robbed building material that was taken from the pyramids of Khufu, Khafre, Unas and Pepi II. Fisher had worked as expedition architect at Giza with George Andrew Reisner in 1908-1910.

GIZA

The Followers of Horus: Studies dedicated to Michael Allen Hoffman 1944-1990. Textual evidence dating to the New Kingdom alludes to chariots pulled by donkeys. Most are views of tombs and objects in situ.
