Arctic and Antarctic Adventure Travel and Tours

Land and sea options Not ready for your holiday to be over? Before finishing the voyage in Reykjavík, have the chance to explore along the west coast of the scenic and diverse country of Iceland. Experience rugged coastlines and remote waters that very few people have paddled or labyrinthine expanses of sea ice in the Arctic Ocean, all from sturdy and stealthy sea kayaks.

Arctic Tours, Holidays & Group Travel

The community boasts an excellent museum, a gift shop, a post office, an abundance of Greenlandic sled dogs and of course the opportunity to meet Inuit people. Ideally 1 month before travel. For information on the data we collect and the rights that you have over your data, see our and here.

Arctic Odyssey

A multinational team of scientists was due to fly in as part of a scheduled relay to relieve those who had already spent several months on the ice, but the plan had to be redrawn when flights were cancelled across the world as governments scrambled to halt contagion of the coronavirus. Watch for iconic arctic animals such as the arctic hare, musk oxen, polar bears and reindeer. The experienced captain and expedition leader decide the itinerary and continually adjust plans as conditions and opportunities warrant; be assured that the best possible advantage will be taken.

Arctic odyssey ends, bringing home tales of alarming ice loss

This voyage offers the best chance for seeing reindeers and polar bears and features wildflower walks across sweeping tundra, trapper camps, and historic sites.
