As a methodology, ethnohistory has been used to examine historical consciousness as constructed through mortuary rituals Oakdale 2001 , the telling of tales about important group events such as traumas Salomon 2002 , and even how individual societies weave narratives about their own geographic inclusiveness in the broader patterns of human contact Carson 2002. ¹ Such reflective, critical, and programmatic writing, not only by anthropologists but also by historians, has proceeded to this day, moving through calls to enhance work within each discipline via conversations with the other to inspired rationales for more active and even institutionalized intersections of the two disciplines. The present volume recognizes and builds upon this understanding of power and knowledge¹.

Discussions of the relationship between history and anthropology in terms of the problematic of the archive give the book additional force, given

the 'archive fever' that grips us all now.

Clio/anthropos : exploring the boundaries between history and anthropology

And ethnologists have increasingly relied on longitudinal visions of their subjects, inquiries framed by the lens of history rather than purely structuralist, culturalist, or functionalist visions of behavior. Ann Arbor, MI : ProQuest, 2015. Historians have increasingly looked to the methodologies of anthropologists to explain inequalities of power, problems of voicelessness, and conceptions of social change from an inside perspective.

Clio/Anthropos Exploring the Boundaries Between History and Anthropology

² Discussions of the promise of an anthropology informed by history and a history informed. It is an exceptionally coherent and interesting collection.

Clio/Anthropos: Exploring the Boundaries between History and Anthropology

Even Hobbes avoided the topic. It is everyday to fuel days, if fairly quicklyByW, overcoming out these methods.
