### 'We prioritized open bars before giving resources to schools': How the U.S. coronavirus response has failed students and teachers

The academy will also serve as a resource for comprehensive and targeted support schools in an effort to promote and build capacity in specific aspects of leadership.

### The Principal's Role in Turning Around Low

These investments may potentially transform teaching and learning by lessening the constraints bounded by place and time. These school climates, in turn, often profoundly affect student performance.

### Education Policy

On average, school districts serving the largest concentrations of students of color receive approximately in state and local funding than those serving the fewest students of color, and the differentials are even greater within states. Clearly, the Biden administration will need to act swiftly to work with states and districts to start addressing the gap in teaching, connectivity, resources, social-emotional well-being, and student engagement.

### The Economic Impact of Good Schools

Another 15 percent of the money will go to help charter schools better support the needs of students with disabilities.
