## Structural and Architectural Steelwork

Basic skills in computer programming are also introduced to give students the ability to solve complex problems. Twelve structural steel building projects have earned national recognition in the awards program IDEAS<sup>2</sup>.

### 12 projects earn structural steel industry's top building award

Each of the three identical hillslopes that form LEO, are uniquely constructed of large steel planting tray structures, built inside an existing large space-framed greenhouse, previously used for intensive agriculture, and anchored over an existing elevated concrete floor structure. The design team provided the owner regularly updated imagery that aided the fundraising efforts, was used in presentations around the state, as well as on social media platforms to keep stakeholders, contributors, and the public in the loop with current information.
