## Notes

The bankruptcy of the core Suzuki organizations, the holding company and the trading company, did not mean the end of all the Suzuki group companies. This route, however, became loss-making after 1986, seriously affecting the company's performance; MOL did not pay dividends between 1987 and 1989. In China, however, the culture of technology differs from the Japanese approach, and a native Chinese solution has yet to be found.

## MITSUI O.S.K. LINES, LTD.

In agricultural technologies, intermediation refers to bridging the gap between the expertise and knowledge found in experimental stations and actual farming practices; intermediation in technology in general is much more far-reaching than this simple example. Containerization increased on routes between industrially advanced and developing countries, and huge investment was needed to finance this expansion. In 1970 MOL established Mitsui OSK Passenger Co.

## Teikoku Nihon to Zaibatsu Shōsha: Kyōkō—Sensōka no Mitsui Bussan (Imperial Japan and Zaibatsu Trading Companies: Mitsui & Co. in Times of Panic and War)

Suzuki Shoten, like many other Japanese firms quickly moved into Taiwan in the hopes of profiting from the colony's camphor, salt, opium, sugar and other resources. Competition was far more intense than before the war, as anyone who had money could construct ships under the government-sponsored shipbuilding program, started in 1947.

## Notes

. Every route between the Far East and the United States made losses and MOL's business performance deteriorated again. A company called Suzuki Incorporated was set up to handle the liquidation of the Suzuki interests.

## Notes

Changes during the Meiji period In 1868, the upheaval of the Meiji Restoration brought both crises and opportunities for Mitsui and many other

merchants.

## **About**

Kaneko resisted this change out of fear of losing control. Studies of the social dynamics underlying the creation of new organizations in enterprise groups are essential to expand our knowledge of organization creation.

## **Sumitomo Group**

The major companies of the group include , , , , , , and. In 1903 Suzuki Shoten built a sugar refining plant for about two and a half million yen - it sold the plant four years later for six and a half million yen plus various marketing rights.
