## Vol. 1, No. 8, April 1995 of Teaching Children Mathematics on JSTOR

Rethinking Mathematics has the potential to change the basic ways we think about and teach one of the most important subjects in schools today. How Big is the Moon? While such changes are big, there are many kids who navigate them with the support of their parents. Our best advice is to take a little at a time.

## Resource\_Library

She's doing a lesson a day! We're heading into our 3rd week and so far it's all working out just great! We started this mid year last year and she enjoys it.

## Illustrative Mathematics

Back then, if you were a woman and pregnant, you were not allowed to be a teacher. The heavy foot of legal threats may work, but that does not mean it is the best first resort, or even second or third.
