Department of Industry, Science, Energy and Resources

There are data adequacy and generalisability concerns. Some support for such partnerships was found in a survey of the research community.

Top 10 Data Science Use Cases in Telecom Industry

We acknowledge First Nations Peoples as the Traditional Owners, Custodians and Lore Keepers of the world's oldest living culture and pay respects to their Elders past, present and emerging.

Minister for Industry, Science and Technology

Ortho-xylene is used mostly to produce phthalic anhydride, an important intermediate that leads principally to various coatings and plastics.

history of science

Thus, a benzene molecule is made up of six carbon C atoms and six hydrogen H atoms and has the chemical formula C_6H_6 . This is a reflection of the specialised nature of petrochemicals manufacturing and the fact that much of the technical innovation in the industry has come from pure chemistry external to the oil and gas industry core activities. For example, Saitz pointed out that the Research Society on Alcoholism meetings, the world's largest scientific conferences on alcohol, are supported by industry funding.

Blue Industry and Science

We offer a necessarily parsimonious account of a large dataset, reporting only on issues that have been prominently discussed. Predicting the CLV of any customer is very important for every industry.

Florida's Life Science and Biotechnology Industry

Organic , such as , isopropanol, and , are produced in fermentation by various *Clostridium* species and can be prepared on an industrial scale. This article provides a broad survey of the development of science as a way of studying and understanding the world, from the primitive stage of noting important regularities in nature to the epochal revolution in the notion of what reality that occurred in 20th-century.

Blue Industry and Science

Although bacterial oxidation of sulfide materials results in the undesirable formation of acid mine drainage, the same reaction has been put to use for microbial of , , and other valuable metals from low-grade sulfide-containing. Benzene, toluene and the isomeric xylenes.
