RECAP: Delays on M6 following collision

It involves converting the hard shoulder into a running lane during peak times, as well as the introduction of variable speed limits.

Changes made to M54 and M6 link road plan to ease concerns

A driver was clocked hitting speeds of nearly 100mph through the smart motorway roadworks on the M6.

Changes made to M54 and M6 link road plan to ease concerns

There was also a major closure in place on the M6 this morning following a three car smash in the early hours, more details below in the blog. The first major works are on the Coventry Station Masterplan, which are due to start this summer. One motorist has reported virtual gridlock with cars struggling to get out of the car park.

Midlands Connect

The organisation launched its Midlands Connect strategy in March 2017, recommending a host of rail and road improvements over the next 20 years that it believed could, if implemented, help to create as many as 300,000 new jobs across the Midlands. Our location at the heart of the UK should give business and industry an advantage and opportunities to thrive, not strangle them with an insufficient road network.

Highways England

The strategy says that the proposals would improve the reliability of journeys by road and boost the region's economy and help deliver 50,000 new jobs.
