However, under the proposed regulations, the net amount of income in each category of FPHCI was calculated separately for each relevant corporation, such that net gains or losses of a look-through subsidiary may not be netted against net losses or gains of another look-through subsidiary or of a tested foreign corporation. It is anticipated that it will rarely be the case that a related person will not have gross income, because gross income for most taxpayers is determined without taking expenses into account.

In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

The Sukuk Handbook: A Guide To Structuring Sukuk

I don't think the treasury do much, if anything, to support the value of the USD because, as you rightly mention, the cb is under control of the government and so there is this whole circularity thing going on. We don't and therefore I think you are mistaken. Given these modifications to the rule and the fact that the definition of stapled entities in section 269B c 2 already limits stapling to situations in which more than 50 percent in the value of the beneficial ownership in each of the entities consists of stapled interests, the Treasury Department and the IRS have determined that it is not necessary at this time to provide guidance on the application of section 1298 b 4 or to further limit the interests that can be stapled.
