Water temperature observations

The data fields are displayed as composite images calculated from the most recent hourly GOES infrared satellite data.

Oregon Coastal Ocean Observing System (OrCOOS)

The authors are thankful to Department of Earth Sciences, Gujarat University for their encouragement and support. The ocean plays a major role in regulating the planet's

weather and climate. The in global mean sea level provides a way to test climate models' predictions of global warming.

GOES Satellite

The spread in CC has been observed maximum during July—September. Landmasses and the large area of sea ice around Antarctica appear in shades of gray, indicating no data were collected. Year-round observations of sea levels are obtained from 14 mareographs, i.

Reynolds SST Analysis

White areas did not have enough data to calculate reliable long-term trends.

Ocean Currents and Sea Surface Temperature

Cambridge, United Kingdom: Cambridge University Press. Operational Products CoastWatch SST CoastWatch sea surface temperatures are derived from a set of multi-channel atmospherically corrected algorithms using brightness temperatures from channels 3, 4 and 5, albedo information from channels 1 and 2 and satellite and solar zenith angles.

Sea Surface Temperature (SST)

During El Niño, temperatures in the Pacific near the equator are warmer than normal.

Oregon Coastal Ocean Observing System (OrCOOS)

Cambridge, United Kingdom: Cambridge University Press. POES Resolution: 36 Km Frequency: Monthly Developmental Products CoastWatch SST Color enhanced versions of Sea Surface Temperatures from GOES Imager. Change in Sea Surface Temperature, 1901—2015 This map shows how average sea surface temperature around the world changed between 1901 and 2015.

Sea Surface Temperature (SST)

The SST analyses are separated into Eastern Pacific and Atlantic domains. This graph uses the 1971 to 2000 average as a baseline for depicting change. About the Data Indicator Notes Both components of this indicator are based on instrumental measurements of surface water temperature.
