Cunningham Adam Ni Michael Kofman C. Recommendations NATO may be back to its traditional mission of deterrence, but deterrence itself has evolved. Sharp carefully dissects Moore's deterrence model and examines those incentives that discourage nondemocratic governments from pursuing violent conflicts.

Start and the Future of Deterrence

These systems present a threat to the United States and its allies, and they need to be limited. A decision not to extend New START would likely embolden voices in Germany and other allied capitals who oppose alliance deterrence policies and believe the Trump administration's stewardship of these policies may increase threats to Europe, not decrease them. N-party nuclear interactions are more common, as are regional interactions not directly involving the United States as in South Asia.
