## twitter

That could relate to cultural norms, more driving training getting a license in Austria is both time consuming and expensive or a stronger restriction on right turns on red generally not allowed anywhere, but another aspect was simply where signals are placed at intersections. I spoke to a group at a Cupertino middle school recently and the woman heading up their traffic safety group was ticketed for not waiting for a pedestrian to finish crossing all lanes. Bikers are allowed to be slightly farther forward from cars to promote visibility.

## West Village

All of these things could be done here! We had a green light and were making a right turn when a pedestrian across the street of a four-lane road stepped into the crosswalk. Either way, for those drivers who do abide by the light, it still keeps them farther back, leaving the crosswalk clear for pedestrians.

## Roadshow: What's the rule on stopping for pedestrians crossing wide streets?

Except for transfer points, near-side pull-out stops are not generally preferred on multi-lane streets, but may be applied if a major near-side destination exists, or if problematic conditions such as driveways or missing sidewalks exist at the far-side location.

## The Far Side Comic Strip by Gary Larson

Cars blocking their space makes this all the more daunting. The GVSHP, a nonprofit organization dedicated to the architectural and cultural character and heritage of the neighborhood, successfully proposed new districts and individual landmarks to the LPC.
