The advanced Montessori method (1917 edition)

This is the object of the didactic materials designed for the use of children from three to six years of age.

The Advanced Montessori method ... (1965 edition)

Through hands-on activities and interaction with other people, children instinctively work to construct their inner selves. The Biological Science Curriculum is a focus of great energy and enthusiasm in the elementary Montessori classroom.

The advanced Montessori method (1917 edition)

They are deeply interested in all that humans have discovered and developed.
