## Chapter 3. Assessing Community Needs and Resources

Is the confusion worse at sometimes than at others? It's helpful if a group of people -- perhaps the same people who carried out the assessment -- review the results and share their own interpretations.

### Surveys 101: A Simple Guide to Asking Effective Questions

A critical element of the targeted history is a review of medications, including prescription, over-the-counter, herbal and illicit drugs. Airdrie owes its existence to its location on the 'Hogs Back' — a ridge of land running from east to west. If client cannot prepare meals, why not? Let your staff and passengers know if they are fit enough before they board the flight.

### The needs and resources of older people

It takes a special kind of mind set, a special kind of provider to grapple with those on a day-to-day basis. The official closing date of the Channeling Demonstration was March 31, 1985. By the turn of the century were becoming popular in the area and by 1911 the Pavilion in Graham Street was built which after initially being used as a music hall started showing cinematographic pictures.

### The needs and resources of older people

The prison was legalised in 1859 and had 51 cells. It's harder to do things, more difficult. If you have a choice, you may want to survey more people, with different questions, in different ways.
