Plastics Industry

This is a book which has been planned for ease of use and the information is presented in a way which is appropriate to the users' needs. The field has been expanded to include any substance that is added to a polymer to improve its use, so including reinforcing materials such as glass fibre, carbon black and titanium dioxide.

Environment, Health & Safety

The plastics industry represents a substantial portion of the American workforce.

PLASTICS Machinery Safety Standards Committee Establishes New, Combined Safety Standard for Injection Molding Machinery

Â joins the Harrington family with over 75 years of experience in the fabrication of custom plastic solutions for industrial markets. Plastics Scrap The manufacture and distribution of plastics are seen everywhere.

Harrington Industrial Plastics

Show more Both technically and economically, additives form a large and increasingly significant part of the polymer industry, both plastics and elastomers. Every ton of plastics that are recycled can save enough energy to power nearly two households for an entire year! Focuses on recognizing and controlling common amputation hazards associated with the operation and use of certain types of machines.

Plastics

ASTM's plastics standards are instrumental in specifying, testing, and assessing the physical, mechanical, and chemical properties of a wide variety of materials and products that are made of plastic and its polymeric derivatives.

Plastics Standards

List of plastics standards developed by ASTM: Analytical Methods Designation Title Cellular Materials - Plastics and Elastomers Designation Title

Durability of Plastics Designation Title Electrical Insulating Materials Designation Title Environmentally Degradable Plastics and Biobased Products Designation Title Executive Designation Title Film, Sheet, and Molded Products Designation Title Mechanical Properties Designation Title Optical Properties Designation Title Plastic Building Products Designation Title Plastic Lumber Designation Title Recycled Plastics Designation Title Reinforced Thermosetting Plastics Designation Title Reinforced Thermosetting Resin Piping Systems and Chemical Equipment Designation Title Specimen Preparation Designation Title Terminology Designation Title Thermal Properties Designation Title Thermoplastic Materials Designation Title Thermosetting Materials Designation Title Trenchless Plastic Pipeline Technology Designation Title Other standards developed by ASTM committees:. The revised standard applies to horizontal and vertical injection molding machines.

Plastics

Aetna has steadily grown its customer base and partnership with its vendors; establishing an unrivalled reputation for quality and customer service. Both technically and economically, additives form a large and increasingly significant part of the polymer industry, both plastics and elastomers. Harrington maintains high levels of inventory nationwide, ensuring that your project needs are met.
