## ACCME Standards for Commercial Support

The federal government has not been involved in the design of these standards, which were developed in a partnership between the Council of Chief State School Officers and the National Governors Association.

## NMC post

In advance of a clinical trial, sponsors, researchers and host country governments should make provisions for post-trial access for all participants who still need an intervention identified as beneficial in the trial.

## Reviewing our post

She managed the Modernising Nursing in the Community programme that led to significant changes in the role of Health Visitor in Scotland.

## History of Duty Hours

We follow this process when we receive information that indicates that a teacher may have fallen short of the standards of conduct of professional competence that we expect. We think that this provides sufficient and appropriate information on the procedure and that it is unnecessary to replicate this within the Scheme but we will keep this under review. .
