IAFOR Scholarship Recipient The Impact of PISA in a Local Chinese Context: Qualitative Insights Huining Ding, University of Leeds, United Kingdom Huining Ding is a doctoral researcher at the University of Leeds, UK.

## ACEID2019

Prior to 1997, Kato worked at Eiken Foundation where she developed the junior English proficiency test.

## Training Partnerships

How do we help students and teachers alike navigate and curate the vast information available? Institutions can also integrate SimpleLearn programs as part of their degree curricula through the use of technology in education flipped classroom or virtual textbook. Contact information, related policies, and complaint procedures are listed on the.

## UPCEA

Please email members for specific inquiries.

## Continuing and Professional Education at the University of Oregon

Wagner Graduate School of Public Service As a top-ranked school of public affairs, NYU Wagner offers various opportunities for professionals to pursue their education and increase their impact in the field of public service. A high cultural context country like Japan creates a classroom where not only there is a fault line between Japanese and international students, but also between international students, leaving little room for common ground to buffer, address, mediate and reconcile what can only be described as screams of irreconcilable differences. The technological

and logistical advances of globalisation have enabled us to become independent and empowered as never before, but also at the same time made us more dependent on the very things allowing autonomy.

## **ACEID2019**

Welcome to Continuing and Professional Education Continuing and Professional Education CPE connects the University of Oregon with regional communities to enable learning outside of the traditional university setting.

### **Continuing Education**

The intent here is to ensure that the learner experience is truly an authentic representation of the university brand.
