## Terlyn Industries

The Terlin Team The Terlin Team is a talented and driven group of experts, tradespeople, designers, and project managers. We have always found their workmanship, service, and technical support to be of the highest quality. Not only did they deliver on time, but they worked great with the architect, all of the trades and subcontractors, and myself whenever I had any questions or concerns.

## What We Do

The amazing capabilities of our system reduce the water wasted from a cooling tower HVAC system by up to 97%! As well, their management and dedication to their projects is exceptional. By making customer service and satisfaction our highest priority, Terlin Construction has evolved over three decades to become a leader and innovator in full service construction for the retail, commercial, and institutional sector in Ottawa, across Canada, and internationally.

## What We Do

Our experienced and dedicated team pays close attention to budget and timelines, ensuring minimal disruption to your business. The SSDI is a searchable database of more than 70 million names. Terlin has the infrastructure and expertise to manage your risk and deliver on your investment.

## Who we are

New York and 1 other state had the highest population of Terlin families in 1880. We also make a system that is distributed by the Liebert Corporation to control scale in their industrial infrared humidifiers called Vapure.

## What We Do

An unusually short lifespan might indicate that your Terlin ancestors lived in harsh conditions. Ultimately, their professionalism produced a fantastic office that I was very happy with and that I am proud of.

## Terlyn Industries

In particular, I was impressed with their willingness to resolve any issues that I had and be available to discuss things over the phone.
