Mousterian Culture

This was the wave often referred to as the recent dispersal of modern humans, the bearers and initiators of the Upper Palaeolithic, a change that is also seen as a technological and cultural revolution.

Prehistoric Europe

Interestingly, in some sites, this pattern is documented for both exotic and local raw materials, giving new insights into site function and duration of occupations. The wide territories of Northern Asia and Eastern Europe have been occupied by the mammoth mammal assemblage, including four sub-assemblages: Arctic I , European-Siberian boreal IIa , North Caucasian boreal IIb , and Altayan III Fig.

European Russia

Mousterian: A Middle Stone Age Technology That May Be Outmoded. The immediate precursor of the Levantine Mousterian is the Yabrudian industry, which dates from 350 ka, and is the earliest regional lithic variant in Asia.

Mousterian Culture

Other early Neolithic cultures can be found in and Southern Russia, where the epi-Gravettian locals assimilated cultural influxes from beyond the Caucasus culture of and related in Spain , where the rare Neolithic of appeared without known origins very early c. In late 8th and early-to-mid-9th centuries AD the was formed in modern western Russia.

The Mousterian Middle Paleolithic Tool Industry

Fouracre, Paul; McKitterick, Rosamond; Reuter, Timothy; Luscombe, D.
