Christopher K. Fuller, MD

He pursued a residency in dermatology and was recognized as Chief Resident during his final year of training. As the growth line expands outward, the skin in the central portion of the lesion may begin to appear more normal. The office is very clean and inviting and all the staff members I ran into were all very friendly.

Messenger Dermatology

This characteristic presentation reflects the old notion that there is a worm beneath the skin, circling in on itself.

Dr. Monee Thomas

She has spent years undergoing specialized training in the medical care of the skin, hair and body at prestigious institutions, Harvard University, University of Chicago and Washington University in St. Louis. Diagnosis and testing of oral candidiasis. I went in for a consultation for minor cosmetic facial procedure and was very impressed with her knowledge and professionalism.

Dermatology

Following a military family tradition, he enrolled in the US Navy.

Dr. Monee Thomas

Ringworm tinea corporis is a fungal skin infection that can affect just about anyone of any age, although it is more common in children. Once they have become inoculated into the broken skin areas, they spread quickly. Monee Thomas has the warmest approach to her patients, takes the time to listen and address any questions or concerns you may have.
