Therapeutic Touch

There are odd books, curious machines and even an old nurses hat from the 1960's. .

Your Friendly Neighborhood Archivist

If they are honest, visual demonstrations are generally effective in the marketplace. Mosby, 1984 , a textbook endorsed by the American Association of Critical Care Nurses. Madame Blavatsky, was the primary force behind the emergence of the esoteric tradition called Theosophy.

How to Create Advertising that Sells

What you show is more important than what you say. Economists—even Russian economists—approve of this.

Repetition Advertising

I should not have been surprised that a school with a student population of 35,000 or so should have an impressive book repair program but this made my eyes pop out like Don Knotts. The Believers must retrieve his memory and secure the Egg before Bathurst gets Evan and tortures the information out of him.

Branding Your Salon for Excellence

It pays to launch your new product with a loud BOOM-BOOM.
