Determination of symbols of compounds 2. It was very misty, and the moss which covered every rotten stick, and the vegetation generally, was dripping with moisture, and every sapling we grasped in climbing upwards was the means of shaking a shower-bath on us from the trees above.

David Gill, man and astronomer : memories of Sir David Gill, H.M. astronomer (1879

Filtering sunlight through coloured liquids and glass yielded unsatisfactory results. Arthur von Auwers 1838—1915 , then at the observatory at Königsberg, informed his colleagues that he had been watching the nebula for many years. There is no room for negotiation and no chance of success.
