### Multicultural Education: Issues and Perspectives

These included creative and critical thinking skills, intercultural competence, and social and global awareness. Girls continue to be underrepresented in advanced math, science, and technology courses, and their test scores in these subjects often fall behind boys as they progress through school.

### Education Research Paper on Multicultural Education

Teaching and Teacher Education, 2008.

### A Brief History of Multicultural Education

In some states, like California, and in the 20 largest urban school districts across the country, students of color constitute an overwhelming majority of the school population. B ANKS, J AMES A. During the late 1960s, ethnic studies programs sprang up in colleges and universities, and courses such as Black Literature and Chicano History were instituted in selected high schools across the country.

### Multicultural Education: Goals and Dimensions

New York: Teachers College Press.

### Multicultural Education Issues and Perspectives, James A. Banks, Cherry A. McGee Banks. (Paperback 1118976282)

Community and parent activists from Los Angeles to Brooklyn demanded more control over the content of the curriculum, more Black and Hispanic teachers and administrators, and more diverse representation and decision-making powers on local school boards. Multicultural education theorists believe that the nation's schools should respond to its increasing racial, ethnic, and language diversity. Readers will also see how language, pedagogical issues, and policy reforms have been constructed, assimilated, and mutated over the highlighted period of time.

### Multicultural Education: Goals and Dimensions

These intensified efforts to improve performance in math and reading tend to drive other subjects out of the curriculum. In 1937 he began publication of *The Negro History Bulletin*, a monthly magazine for teachers and students featuring stories about exemplary teachers and curriculum projects, historical narratives, and biographical sketches. Young people get into the where a teacher speaks a foreign language they do not understand at all and their task is not only to understand what a teacher says but also gain new knowledge — twice harder than in customary classrooms.
