CAB Direct

The research described in this thesis sets out to contribute to the debate regarding PPGIS and empowerment. Increased public involvement in the definition and analysis of questions tied to location and geography is the domain of Public Participation GIS PPGIS. MapObjects- Building Applications with MapObjects.

GIS

For many people with disabilities — particularly those with severe disabilities — issues of employment and community participation must be related to other aspects of adult life. Rather than group analyses of these data they will be analysed in conjunction with qualitative data to enable a more in-depth consideration of participant experiences at an individual level. Moreover, Public Participation GIS and Personal GIS would be capable of managing and integrating all data components and participant contributions from one interface.

Community Participation and Geographic Information Systems

Oliver M, Mavoa S, Badland H, Parker K, Donovan P, Kearns R, et al. Vogts N, MacKey A, Ameratunga S, Stott N. There were similar communication barriers when working with young Deaf and hearing-impaired participants who were recent immigrants to NZ, some of who had proficiency in international sign languages but were not yet fluent in NZSL.

Community Participation

This applies to modern corporations as much as to traditional communities.

Enabling participation for disabled young people: study protocol

The problems of the urban poor may well be exacerbated by the changes brought by new electronic technologies for computation and communication, which are having profound consequences on the nature of employment, the make-up of the work force, and the structure and function of cities. Programmers can also design advanced Web pages by combining Java applets or Active X controls in their applications. The New Zealand Disability Strategy: Making a World of Difference - Whakanui Oranga.

keng

A conceptual model of the factors affecting the recreation and leisure participation of children with disabilities. Accelerometer data reduction in adolescents: effects on sample retention and bias.

Community Mapping and Geographic Information Systems

Some run time errors may cause the applications to crash. The assumption has been that participatory development projects will be better designed, have better targeted benefits, and be more cost-effective and less corrupt.
