NATURAL RESOURCES CODE CHAPTER 86. REGULATION OF NATURAL GAS

The approved its version of the legislation on June 14, 1989 by an 82-17 vote. The Senate agreed to the conference committee report on June 22, 1989 and the House followed suit on July 12, 1989. To learn more about the current regulatory environment, click.

The field regulation of natural gas (Book, 1969) [ne-x.uni.rf.gd]

The exploration for and production of natural gas and petroleum form a single industry, and many wells produce both oil and gas. The FPC was charged with regulating the rates that were charged for interstate natural gas delivery and with certifying new interstate pipeline construction if it was consistent with the public convenience and necessity.

ENERGY AGENCY OF THE REPUBLIC OF SERBIA

As of 2015, pipelines were under construction to carry cheaper gas from Pennsylvania to New England. Transportation fuel made up 0. By 1975, about half the natural gas produced went to the intrastate market.

A Brief History of Natural Gas

Order 636 also requires that interstate pipelines offer services that allow for the efficient and reliable delivery of natural gas to end users. In the early 1900s, natural gas began to be shipped between municipalities. Amended by Acts 1981, 67th Leg.

Natural Gas Policy Act of 1978

The number of actively drilling gas rigs was once regarded as a reliable leading indicator of near-future gas production. Once effective pipelines began to be built in the 20th century, the use of natural gas expanded to home heating and cooking, appliances such as water heaters and oven ranges, manufacturing and processing plants, and boilers to generate electricity. Allocation efficiency is aimed to maximise social welfare, i.
