## Nursing, Bachelor of Science (B.S.), accelerated program < Virginia Commonwealth University

Discussion with classmates and faculty will facilitate leveraging beginning QI strategies into participation in Quality Improvement and safety teams at the unit and institution level. Weekly seminars complement the field experience. The student will synthesize knowledge of acute and chronic health problems and advanced assessment; develop and evaluate evidence-based nursing and symptom management plans of care; propose strategies for measuring outcomes-driven care; recommend strategies for patient and professional education in the care of patients and their families; and recommend appropriate referrals and consultations across the health care continuum within a population focus.

## Master's in Nursing

However, before considering methodology, evaluators should reflect on the theoretical frameworks that guide their practice. This course will provide an overview of regulatory action and the legislative and judicial processes, enabling learners to become familiar with changes affecting the health care system such as patient rights, technological advances, and managed care. The purpose of this course is two-fold: first, to introduce the student to the essentials of scholarly writing and the logical presentation of ideas; and second, to then apply these essential skills to the identification of an important practice problem.

## Nursing, Bachelor of Science (B.S.), accelerated program < Virginia Commonwealth University

This includes the background, underlying causes, and the dynamics which cause populations to be vulnerable in emergencies.

## Master's in Nursing

Given adequate time and familiar cues, they may be able to exchange greetings, give their identity, and name a number of familiar objects from their immediate environment.

## Nursing, Bachelor of Science (B.S.), accelerated program < Virginia Commonwealth University

Emphasis is on applying theory and research to families with members experiencing complex health problems. Management of acute and complex chronic health conditions will be accomplished through didactic content and through clinical experiences under the direction of faculty and clinical

preceptors. Semester course; 3 lecture hours.

### **Nursing, Bachelor of Science (B.S.), accelerated program < Virginia Commonwealth University**

Intended users are more likely to use the evaluation if they feel ownership of the process and its results. Credits required for admission to program: 55  
Sophomore year Summer semester Concepts of Professional Nursing 2 Technologies of Nursing Practice 6 Health Assessment for Nursing Practice 3 Term Hours: 11
