Knowledge management practices in universities: The role of communities of practice

Covey 2006 has identified 'five waves of trust' that are worth considering. She said policy-shaping is intentional work that creates performance standards for healthcare providers, governmental agencies, and others interested in patient safety and well-being. The growing attention to these topics has also been triggered by changes in funding modalities and in university governance and accountability frameworks, as well as growing competition among higher education institutions and the evolving student body.

Efficiency of Universities: Drivers, Enablers and Limitations

In that spirit, sustainable public funding as well as greater institutional autonomy underpin the capacity of institutions to improve the efficiency of processes in the long term.

Decision

The main argument here is that complexity theory is a powerful conceptual approach assuming that new challenges put towards higher education institutions demand transformative change which involves a higher level of learning and, awareness of system sustainability.

Decision Making: Process and Theories

.

13582339

In the wide area of foreign policy both the states and the individuals are both actors.

Decision

Impact of Efficiency Measures Various institutional actors may react differently to the implemented efficiency measures. To help institutions and policymakers address these questions, the European University Association EUA , together with its partners, initiated a project called Universities for Strategic, Autonomous and Efficient Management USTREAM.

13582339

Various examples show that all three elements—economy, efficiency and effectiveness—are equally important in the higher education context. Effective engagement and trust requires that everyone involved is working from a common understanding of the issue and each other's perspectives as possible.

Health 303: Healthcare Organization & Management Course

Governing Boards A university's governing board, also known as the trustees, regents, or board of visitors, possesses fundamental legal authority over the university.
