## Attitude and personality characteristics of older stutterers

Extraversion and Positive Communication Attitude: the Study This study had 30 participants, 23 men and 7 women, and were PWS who had sought out stuttering treatment at a clinic in the Netherlands.

## Perceptions of Stereotypes of People Who Stutter in Hispanic by Ruth Crutchfield and Xiaohui Wang

Stuttering may cause a person to be embarrassed and make them feel nervous about talking. We want to learn to talk fluently. Whether you are a stutterer or not.

## Perceptions of Stereotypes of People Who Stutter in Hispanic by Ruth Crutchfield and Xiaohui Wang

Personality typing can seem unfairly restrictive — after all, everyone is capable of displaying qualities of either type depending on the circumstances. Cognitive factors such as attitude and emotions are taken into account. Some speech-language pathologists think they are capable of treating psychological disorders associated with stuttering.

## Attitude and personality characteristics of older stutterers

A high degree of extraversion correlated with the degree of positivity towards communication.

## The Extraverted Personality and Stuttering

Do stutterers fear social interactions? Despite having forty individual, one-to-one, Speech Therapy sessions and attending a regular monthly Speech Therapy group, with other people who stammer, my stammer is still up and down and I still struggle when having to phone someone, despite being advised to write everything down, like a script and then read it out when speaking on the phone.
