Cottage Hospital Home Page

From the mid-16th century until the Voluntary Hospital Movement in the early part of the 18th century there was a dearth of hospital care in the UK. That same cottage still exists today at the entrance to Cranleigh Village Hospital. In particular, several are still recognisable in within the infrastructure of , , , and in and in , an example being the , which is still working as a traditional cottage hospital.

Cottage Hospital Home Page

This hospital opened because Dr Napper was concerned that there were no local hospital facilities for the poor in the village. The victim had been carried to a nearby cottage and when Sapte arrived he found Albert Napper and two assistants amputating the leg of the injured man. The staff there is very cordial....
