A Concise Economic History of the World: From Paleolithic Times to the Present by Rondo Cameron

A nice overview of the economic history of the West. Cameron and Neal place the third logistic in the first part of the nineteenth century. Truly a definitive history of globalization, the new edition has been expanded to include coverage of the most recent developments in the European Union, East Asia, and, in general, transition economies.

[PDF] A Concise Economic History of the World: From Paleolithic Times to the Present

Institutions Adjust or not to Modern Economic Growth Chapter 10. This book does not present an investigation of economic theories or the major figures that shaped economic thought.

[PDF] A Concise Economic History of the World: From Paleolithic Times to the Present

Manages to pack an astonishing wealth of detail on many topics, from the manorial system to the recovery and integration of Western Europe after World War II.
