each case he views revolution through the lens of the peasantry in Mexico, Russia, China, Vietnam, Algeria, and Cuba comes off as plodding.

Eric Wolf

Wolf's explanation of these factors in each revolution as well as critical factors about strategy and ideology were fascinating. Eric Wolf has written a book composed primarily of class analysis, but that is not from a Marxist perspective on the issue.

Jairus Banaji: Peasant Wars of the 20th Century (April 1972)

Wolf is ultimately of the opinion that peasant populations are incapable of carrying out revolutions without organizational assistance from political parties, and that with the exception of Cuba, urban participation was a necessary component of these various revolutions. Systems Marxism is the discipline of postulates that could be used to frame general laws or patterns of social development.
