VET for secondary school students: acquiring an array of technical and non

Additionally, males were more likely to concentrate in agriculture, trade and industry, and technical and communications, while females were significantly more likely to concentrate in business, health, and occupational home economics.

Pathways to further education and employment

For instance, educators have been called upon to integrate academic and vocational education. Graduates in lower socioeconomic quartiles; students with disabilities, lower grade point averages, and greater numbers of accumulated remedial credits; and both student parents and expecting students were more likely to participate than other students. So it was a very significant workshop bringing together all of the issues.

Vocational Education and Training (VET)

It's really around that relationship between the RTO, and the school, and the student, and we need to make sure that that's a robust arrangement in the future.

Technical & Vocational Education

And I might just throw it to Chris here just to explain Upfront Assessment of Need and VETRO, the similarities.

Vocational Education Lesson Plans

Download TITLE FORMAT SIZE VET for secondary school students: acquiring an array of technical and non-technical skills. Limited-English proficient graduates participated at roughly equal rates as English proficient graduates in vocational education and occupationally specific education and earned roughly similar numbers of credits in these curricula. And that will remain the situation.

Career and Technical Education Teacher Resources

Students learn about the importance of business writing, learn how to write a formal business letter, and practice writing general business letters.
