Fossil algae : recent results and developments : International Symposium on Fossil Algae (1st : 1975 : University Erlangen

Poisson -- The Lower Cretaceous calcareous algae in the area surrounding Geneva Switzerland. It consists of two papers, one difficult to read, the other a translation of a previously published French contribution. Five groups of plants have been distinguished: 1 emerged plants, 2.

Fossil algae : recent results and developments / edited by Erik Flugel

All in all the list of contributors represents a comprehensive bringing together of persons with respected reputations in their respective fields, which makes it perhaps the more unfortunate that their contributions do not in the event knit together except at a taxonomic level. Not all contributions in this section are of equal impact, interest or novelty, however. A broad section of this book is reserved for some stimulating papers about the role of algae as facies indicators and sedimentological factors in Recent and Ancient environments.

Fossil algae : recent results and developments : International Symposium on Fossil Algae (1st : 1975 : University Erlangen

Some of these articles comprehend fundamental reviews on algal groups and algal constructions, such as Monty on the stromatolites, Herak et al.

Fossil algae. Recent results and development

The coincidence of depths for these features could alternatively be explained as a result of initial continental rifting for Atlantic type continental margins, with subsequent sedimentation forming the rise.

Fossil algae : recent results and developments : International Symposium on Fossil Algae (1st : 1975 : University Erlangen

Format: Paperback Author: Flugel, E. Biostratigraphy and Depositional Environments -- 33 Relationships of Algae with Depositional Environments

and Faunal Assemblages of the Panormide Carbonate Platform, Upper Triassic, Northwestern Sicily -- 34 Environmental Models for Upper Paleozoic Benthic Calcareous Algal Communities -- 35 Devonian Calcareous Algae from the Dinant and Namur Basins, Belgium -- 36 Some Ordovician and Silurian Algae from Selected Areas of the Southwestern United States -- 37 Early Cambrian Algal Carbonates in Southern Spain - Index of Generic and Species Names. Schmitt and Monninger present the first results of their study of Moroccan stromatolites; these are from sections that are of considerable interest for the definition of the Precambrian--Cambrian boundary.

Fossil algae : recent results and developments / edited by Erik Flügel

The next two sections are brief and consist of one paper each. The author develops the division of the Kremenchugskoye reservoir Chapter I, giving special attention to the classification and description of the shallow parts, i.

Fossil Algae : E. Flügel : 9783642665189

They also stress the fact that preservational processes produce a biased record, with the selection of intertidal to supratidal microbiotas. This is an example of the interpretation of stromatolites from bore cores.

Fossil Algae — Recent results and developments: Erik Flügel (editor). Springer, Berlin, 1977, 375 pp., DM 82.00, or U.S. \$36.10

Institut für Paläontologie Edition illustrated Publisher Springer-Verlag, 1977 Original from the University of California Digitized 9 Jul 2008 ISBN 0387079742, 9780387079745 Length 375 pages Export Citation. Considering that many contributors the editor included write in a tongue not their own, there are few mis-spellings and typographic errors. KG ISBN: 9783642665189 Number of pages: 378 Weight: 681 g Dimensions: 244 x 170 x 20 mm Edition: Softcover reprint of the original 1st ed.
