Listing of Impairments

Copying of this material, however, is prohibited. When filing a claim for Social Security Disability with the SSA, the SSA will request a written statement from your doctor. Disorders in this system are generally defined as a disorder that affects the heart from functioning properly; specifically any arteries, veins and capillaries that may cause impairments to arise in other parts of the body such as the kidneys or liver.

Social Security Blue Book

Respiratory system impairments originate from respiratory disorders based on symptoms, physical signs, and laboratory test abnormalities. The conditions that are laid out in the Blue Book are eligible for both Social Security Disability Insurance SSDI and Supplement Security Income SSI.

WHEN SOCIAL SECURITY DISABILITY SENDS YOU TO A DOCTOR WHAT KIND IS IT?

Common conditions associated with immune system disorders include acquired immune deficiency syndrome AIDS, human immunodeficiency virus HIV and Lupus. It was written to target medical professionals and Social Security disability experts, so someone in that field can help you with your claim and help you understand the requirements set forth by the specific listing that meet the criteria of your medical condition.

SSA's Blue Book

WHEN SOCIAL SECURITY DISABILITY SENDS YOU TO A DOCTOR WHAT KIND IS IT?

The DDSs, which are fully funded by the Federal Government, are State agencies responsible for developing medical evidence and rendering the initial determination on whether or not a claimant is disabled or blind under the law. The following information can help you get your doctor's assistance in order to improve your chances of a successful Social Security Disability application. For all other listings, the evidence must show that the impairment has lasted or is expected to last for a continuous period of at least 12 months.

Disability Adjudication Services

The general information section gives an overview of the application process as well as answers some questions on the different program.

Social Security Disability

One former consulting physician recalled that he was fired when he refused to complete a report about a medical issue outside his area of specialization. In the Blue Book are lists with the qualifying criteria for conditions that claimants applying for disability benefits may be experiencing.
