

Speech and language impairment and reading disability in school age children - a seven year follow-up study.

National Library of Canada - The SLP's Guide to Language Screenings

Ethnic group	2005	2007	2009	2011	% increase
White British	0.88	1.10	1.32	1.49	70
White Irish	0.93	1.12	1.13	1.40	52
Traveler Irish	1.81	1.98	2.62	3.27	81
Traveler Gypsy/Roma	1.70	2.26	2.43	2.93	72
White Other groups	1.19	1.56	1.66	1.86	56
Mixed White and African	1.04	1.13	1.83	1.95	89
Mixed White and Caribbean	0.91	1.41	1.41	1.69	86
Mixed White and Asian	0.98	1.13	1.35	1.45	48
Any other mixed background	1.08	1.37	1.62	1.83	69
Indian	0.70	0.89	1.09	1.27	80
Pakistani	1.13	1.38	1.70	1.81	61
Bangladeshi	1.41	1.80	2.19	2.38	69
Any Other Asian	1.13	1.26	1.46	1.67	48
Black African	1.69	2.03	2.32	2.65	57
Black Caribbean	1.45	1.85	2.36	2.53	75
Black Other groups	1.58	1.97	2.38	2.64	68
Chinese	1.81	1.81	1.99	2.19	21
Any other ethnic group	1.27	1.72	1.91	2.32	83
Unclassified/refused	0.98	1.19	1.36	1.51	53
All students	0.94	1.18	1.42	1.61	72

The data for traveler groups are not discussed in detail because of the very small numbers in these groups.

The SLP's Guide to Language Screenings

Subsequent studies with the children included in this study identified low maternal and paternal education and paternal history of speech, learning, or intellectual difficulties as risk factors for specific language impairment. It also helps them provide 'carry over' or generalisation at home and then 'maintenance' over time.

Childhood Speech and Language Disorders in the General U.S. Population

American Journal of Medical Genetics Part B: Neuropsychiatric Genetics. Acknowledgments Content for ASHA's Practice Portal is developed through a that includes multiple rounds of subject matter expert input and review.

Intellectual Disability

Childhood Speech, Language, and Listening Problems: What Every Parent Should Know. A 12-month follow-up of preschool children investigating the natural history of speech and language delay. Based on the IDEA 2004 regulations, you do not need to get consent if ALL the students are getting the same treatment.

Language and Speech Disorders in Children

For the purposes of this study, however, the committee limited the summary of prevalence estimates to U. Diagnostic and Statistical Manual of Mental Disorders: DSM-IV.

Key Findings: Children Born with Neonatal Abstinence Syndrome (NAS) May Have Educational Disabilities

Children typically have normal speech by the age of school entry.
