Your Right to Equality in Education

The higher education system shall include all public universities and colleges and such other institutions and programs as the Legislature may designate. The Court's standard, for example, would not permit a challenge to part of the IEP; the legislative history demonstrates beyond doubt that Congress intended such challenges to be possible, even if the plan as developed is reasonably calculated to give the child some benefits.

X, § 1 The General Assembly shall provide for the establishment and maintenance of a general and efficient system of free public schools, and may require by law that every child, not physically or mentally disabled, shall attend the public school, unless educated by other means.

State Role in Education Finance

VIII, §§ 1—4 § 1: A high degree of intelligence, patriotism, integrity and morality on the part of every voter in a government by the people being necessary in order to insure the continuance of that government and the prosperity and happiness of the people, the legislative assembly shall make provision for the establishment and maintenance of a system of public schools which shall be open to all children of the state of North Dakota and free from sectarian control. IX, §§ 1, 2 § 1: Religion, morality, and knowledge being necessary to good government and the happiness of mankind, schools, libraries, and the means of education shall forever be encouraged. Taxes shall be uniform on all property in the same class.
