This text's balanced and thorough assessment shows China's leaders exerting more influence in world affairs but remaining far from dominant. With thirty-three years' service analyzing Chinese foreign policy, in both legislative and executive branches of the US government, Sutter's judgments are balanced and mature. Now out of government, he here demonstrates his formidable analytic skills for a wider audience, arguing that much of the debate about China's potential to become a superpower fails to take into account its domestic pressures.
