Instructions for authors of new research articles

In the semester preceding enrollment, interested students should consult with their faculty advisors concerning enrollment procedures. Use of this activity also introduces students to a component of the US Public Health infrastructure that may offer future training or career opportunities for them. Credit is not given for both and.

ICH Guidance Documents

When preparing your manuscript, we recommend referring to the. We suggest you discuss with the unit coordinator, Peter McMinn, before making a textbook purchase.

Frontiers

Students who go on to work in clinical or core labs may benefit from the experience they gain by following detailed protocols closely and carefully. Acknowledgements should follow the main text.

Diagnostic Methods in Virology, Laboratory Diagnosis of Virus Infections, Virological Tests, Virology Methods

BE675048 , and a T-cell lymphoma GenBank accession no.

Instructions to Authors

Prerequisite: or equivalent with consent of instructor.

Journal of Clinical and Cellular Immunology

Provide the full postal address of each affiliation, including the country name and, if available, the e-mail address of each author. For an extra charge, paper offprints can be ordered via the offprint order form which is sent once the article is accepted for publication. Determining the appropriate level of guidance to offer is important at every phase of the exercise design.

Lab Manual in Biochemistry: Immunology and Biotechnology

To guide students to identify metrics of success in advance, posing specific analytical questions in the pre-lab materials is helpful see. How to prepare an electronic version of your article, in: Jones, B. This course consists of 2 components: 1 a journal club, in which students explore current advances in the diagnosis, treatment, and understanding of human diseases by reading, presenting and discussing primary research articles; and 2 instructional support for , in which students hold open office hours and make brief 10-15 minute instructional videos that highlight advanced topics covered in journal club.
