Recent Family Law Rule Changes

The Courts encourage mediation in children cases. On the one hand, slave masters actively encouraged the stability associated with permanent unions between slaves and welcomed the formation of families that would add to the labor supply.

Family Law

The office was charged with developing ways of collecting child support.

Family law in the EU

Non-economic contributions would include maintaining a home and tending to the children while the other spouse works.

Family

The birth mother and a married father will always have parental responsibility for a child and retain it after divorce. Artificial Conception and Surrogate Motherhood Modern technology has created opportunities for conceiving children through , , and embryo transplantation.
