NEW! 2021 Winners

Thank you, and continued success. Leaves, trunks and branches are the most interesting and valued parts of this plant; this plant can become a wonderful sculptural feature in our Inland Empire gardens. We currently work with and manage over 30 growers world-wide who produce over 50 product lines in our portfolio.

Common Ground: Our American Garden

My customers love that we have higher end flowers like garden roses and calla lilies on an everyday basis. Another beauty from the mountains of the Western Cape is the gorgeous agapanthus also called Nile lily. Rounded leaves are deep green and have strongly serrated margins; large clusters of softly fragrant cream colored flowers occur in spring.

22 Large Flowering Shrubs For Your Garden Landscape

You can do more than just wave the flag to demonstrate your love for the country.

Gardens America

Best of all, perennials deliver an increasing number of blooms with each passing year, making them a truly great garden investment. How many plants are you wearing? It is attractive online, but beautiful in person! Cleaning them is a breeze-and, they are dishwasher safe, too! The quiet serenity of nature provides a wonderful setting for yoga and meditation, especially during these times. Versatile and varied, they can form one element of a design that includes other plants, such as perennials and trees, or be used to landscape an entire garden.
