### The Thoughtful Researcher: Teaching the Research Process to Middle School Students

I expect to have new ideas whenever I set out on a solitary walk. Sometimes I find that I am asking for a degree of rigor that a class is not used to.

### Practical Steps to the Research Process for Middle School by Deborah B. Stanley

Exposing middle school students to a range of strategies for a process step also helps them develop the confidence and flexibility to use a less comfortable strategy when a teacher requires it. I enjoyed myself as I answered students' questions and helped them seek out useful materials.

### The Thoughtful Researcher: Teaching the Research Process to Middle School Students

As I progress through another school year, I know that I will continue to reflect, and that some of these ideas will change; some will expand or metamorphose; some I may discard. Techniques for Reflection As a reflective practitioner, I am always gathering data.

I may have only a broad general question, such as, what can I do to help my students improve the quality of their final products? Cut standard size paper in half. In this case, I suggested that many of her students might never have seen a press conference.
