A Heart for the Gods of Mexico: A Novel by Conrad Aiken

Sacrifices were made on specific days. For each festival, at least one of the victims took on the paraphernalia, habits, and attributes of the god or goddess whom they were dying to honor or appease.

Robert Friedland opens Remote Roundup: 'In our world, the geologists are the gods'

Elrik — Siberian Shamanism Sometimes shown as a totemic bear, Elrik or Erlig was the first creation of Tengri or Ulgan; the creator god of the Turko-Mongol peoples in Siberia.

The Aztecs ne-x.uni.rf.gd Mexican history from ancient times to today

. DNA tests of recovered victims from the Templo Mayor site show that the vast majority of those sacrificed were outsiders, likely enemy soldiers or slaves. In 1555 the and their allies killed the Spanish friar.

Severed heads of 119 Aztec women, children and warriors 'sacrificed to the gods' found under Mexico City

Indentations in the rib cage of a set of remains reveal the act of accessing the heart through the abdominal cavity, which correctly follows images from the codices in the pictorial representation of sacrifice. Each one of them has half a body: one eye, one ear, one arm, one leg, one kidney etc. First off, Ortiz challenges Harner's claim of the Aztecs needing to compete with other carnivorous mammals for protein packed food.
