Tombeaux

They are equal if they are anything. As their names suggest, the petit taxis are smaller and can only take three passengers, while grand taxis fit six passengers.

De Temporum Fine Postludia

François Couperin and the French Classical Tradition, new revised edition. The panel dedicated to Lalla Mas'uda has remained next to her grave although it may have been moved around too. In total, the necropolis now contains 56 tombstones marked with mqabriyas ormate marble epitaphs and another hundred or so tombs marked simply with multicolored tiles.

Tombeaux on Steam

The Chamber of the Twelve Columns. The chamber is square, measuring 4 meters per side.

Tombeaux on Steam

Some tombeaux include a motif of four descending notes, a metaphor for grief given influential expression by John Dowland in his 1604.

pluriel

The soundtrack is included with all purchases and downloads of Tombeaux. What is more exceptional is that each group of three columns supports two small muqarnas arches which are also made out of marble instead of the usual wood or stucco and yet appear as intricately carved as the other elements in the room.

De Temporum Fine Postludia

In accord with what happened with the celebrated piece of Giazotto, the clearly improbable provenance of which was deliberately hidden, we recall the original case of the north American composer of Ukrainian origin, Roman Turovsky-Savchuk.
