A better-known study written from a similar viewpoint is provided by WESTEALL, though its extensive attention to Boyle's thought is placed within the context of an account of the ideas of contemporaries such as Newton, which illustrates the strong voluntarist tendencies that mitigated the drift towards Deism in the period. Singers sometimes use these resonances in musical rather than linguistic ways. A third meeting was held in Paris, France, in December 2014, to consider the design of specific practical activities and an organizational structure to enable effective and sustained collaboration.
