Cupcake recipe

Buttermilk is the liquid leftover after churning butter. I went to London this July and spent the most amazing 10 days in my life! Topped with silky smooth buttercream, these individual cakes have become the star of any event, and for good reason.

My Little Pony: Cupcakes (animated)

Thank you for sharing this amazing recipe with us! Made these today...overall they were good. These homemade cupcakes are pure classic.

Sprinkles Cupcakes

Check out my more in depth post about Q: Do you have a substitute for eggs? With the mixer on low speed, add half of the dry ingredients and beat just until combined.

Cupcake recipe

Stir occasionally until butter is melted. Our cupcakes and desserts are baked fresh daily! I love the lightly spiced cake combined with the sweet grated fresh carrot.

55+ Easy Cupcake Recipes

You can prepare the frosting ahead of time as well, as it would keep for about 3 days in the fridge, then bring it to room temperature before using it. This Valentine's, say it with Sprinkles! New favorite vanilla cupcake recipe for sure and I used buttermilk, with the edits you suggested in another comment. Get creative and make your own as well! I had the most amazing time ever! When I take them out, I would say a third of them has this issue.
