Practical Tropical Sanitation: a Manual for Sanitary Inspectors and others interested in the Prevention of Disease in Tropical and Sub

PracticalAction Slow progress can be explained by lack of political prioritisation: In Nepal the coverage of mobile phone is 64% but the coverage of toilets is 62%.

Practical Tropical Sanitation: a Manual for Sanitary Inspectors and others interested in the Prevention of Disease in Tropical and Sub

On 21 March and 23 September areas along the Equator are normal to the sun's rays and experience a zenith path of the sun. Monsoon winds are fairly strong and steady.

Manual on Municipal Solid Waste Management

Relative humidity is reduced by 5 to 10%, due to the quick run-off of rain-water from paved areas, to the absence of vegetation and to higher temperature.

Manual on Municipal Solid Waste Management

This is an instrument based on the moisture movement of human hair, which is proportionate to the relative humidity.

Handbook on sanitation. A manual of theoretical and practical sanitation : George Moses, 1864

It is often necessary to supplement such information with unpublished data obtained directly from meteorological stations. Part III: The Compendium: Comprises of national rules and guidelines, international practices on waste minimization, detailed designs of compost plant and landfill. On a hilly site the greatest wind speeds will be experienced at the crests of hills.

Manual on Municipal Solid Waste Management

Examples of cities in this zone: Lagos, Dar-es-Salam, Mombasa, Colombo, Singapore, Jakarta, Quito and Pernambuco. Localities further north and south often have a third season, best described as cool-dry.

Manual of tropical housing

Ada Oko-Williams, technical support manager for sanitation, , London, UK. Three-dimensional objects, such as trees, or tree-belts, fences, walls and buildings, as these may influence air movement, may cast a shadow and may subdivide the area into smaller units with distinguishable climatic features. For the urban geographer the term 'microclimate' may mean the climate of a whole town.
