Voice Writing Course

Imagine it is growing and growing.

The art and craft of voice (and speech) training

Open your mouth as wide as possible as if you were about to yawn , while moving your jaw in circles, and sideways. .

SPHSC 100 VOICE AND ARTICULATION IMPROVEMENT

I had been teaching at LAMDA for six years and wanted a change. This is a great exercise for feeling the movement needed in the ribcage and to help get the muscles working. Then we give ourselves over to the contrapuntal joyride that jazzily plays long and short vowels, heavy and light images, voiced and unvoiced consonants against the powerful forward thrust of the iambic beat.
