Paul Christopher

Paul Christopher is an American version of George Smiley.

Charles McCarry

In many cases, we learn the fates or the unsuspected connections between characters. Reading these McCarry novels in the order they have been re-released by Overlook has been fun, as the knowledge you have of the character's development and future somehow adds to the involvement.

Paul Christopher

In the book, Second Sight, Paul Christopher is just recently released from a Chinese prison. McCarry's general even-handedness and realism break down only when he deals with the media, personified in a womanizing, hypocritical limosine leftist who dogs Christopher and his people. About Paul Christopher: Paul Christopher, was created by Charles McCarry and he has pleased fans the world over.

Second Sight (Paul Christopher #7) by Charles McCarry

Some of this detail could be omitted without losing the value of the story. Paul Christopher — Through The Years Paul Christopher has starred as the main protagonist, or at least been mentioned, in over eight novels. If there were any da I've clearly stated my love for Charles McCarry's Paul Christopher novels, but I have to say Second Sight is a hard one to recommend.

Unfortunately, SECOND SIGHT goes here and there, back and forth; no story with a beginning, a middle, and an end.
